America's Favorite Birds: 40 Beautiful Birds To Color

Synopsis

Coloring enthusiasts and bird lovers unite with America's Favorite Birds #151; a beautiful and intricately designed coloring book of North America's Top 35 most watched / popular wild birds, from the leading authority on birds, the Cornell Lab!America's Favorite Birds, the first of two titles in a series of Adults Coloring titles from the Cornell Lab, is so much more than a typical adult bird coloring book. Each page includes authentic and detailed backgrounds depicting where each bird perches, nests, and feeds. On the back of each coloring page, readers can learn about the bird they colored...where they live, what they eat, maps, etc., just enough to complete their connection with nature. Plus, a full color illustration pull-out section provides reference, and perforated pages make each finished page easy to save and display.And, as with all Cornell Lab Publishing Group books, a full 35% of the netÂ proceeds fromÂ the sale of the America's Favorite Birds coloring book will go directly to CornellÂ Lab to support projects such asÂ childrenâ TMsÂ educational andÂ community programs.

Customer Reviews

The drawings are fabulous. Many adult coloring books fill the interior of the outline to create complex designs, but they don't show realistic features. Not the case with these images! Each image is very detailed, but in ways to help you learn about the feather placement and variety. The images are printed on heavy quality paper so you can use markers, pastels, or colored pencils. The pages are perforated so you can remove them to make the coloring easier. And there is a brief

paragraph about each bird along with the images to color. It's like you can create your own field guide!

I gave this book as a gift to my sister who enjoys using colored pencils. She particularly loved that there was enough white space in the drawings that she could actually put colors in them. She loved the color photos of each bird at the end of the book so she could be accurate with the colors. And she loves learning about the birds as she colors their feathers and their environment.

This coloring book is just what I was looking for. The illustrations are superb and not too busy. Perfect for birders .

Bought it as a gift. It definitely met my expectations and I'm sure the recipient will love it.

This book shows a true appreciation for the beauty and wonder of birds
