I love Dogs and coloring so this book was a perfect fit for me. The book is paperback and size is 8 1/2" x 11" so it's the size of a normal sheet of paper. The thickness of the pages is like a normal sheet of computer paper. The pages are not perforated so if you want to remove any, you will just need to tear them out carefully. There are 40 designs to color in this book so this is a bit thicker and larger than some I own. Another thing I really liked with this book that many books don't have is on the first few pages, there is a smaller image of each larger image that is in the book. You could color them too if you want but they are small. In my video, I show you all 40 designs you get in this book so you can make your decision if this will be a book you will like. Most of the time, you don't get to see every design in the book to know if you will like it and then sometimes end up being

disappointed so I like to try and do this for people. I personally am very pleased with the book and like it. I think the designs are done well and there is a nice variety and amount to color on the pages. I love the designs on the dogs as well as the patterns around them. If you are going to use gel pens or markers to color, I recommend placing a sheet of poster board/cardstock in between the pages or even just a few extra sheets of paper so they don't run through. If using colored pencils, you won't need to worry about it. Overall, a very nice coloring book that I would recommend and really am enjoying. I received this product at no cost in exchange for an honest and unbiased review. No compensation for a positive review was provided. All of my reviews are based 100% off of my experience with the product and I never guarantee a positive review.

I received this book yesterday. It has incredible art work with great arrangement of the designs. The book is full size and pages are printed on both sides. The paper is of medium quality and so I plan to copy to card stock before coloring.

I received this book as a gift, and I love it! I'm an animal lover, and so is my Son, Konnor. We have a chocolate lab named Reece, and she is our world, along with our Rabbit Buggs, Our Cat Nomeo, and the Chickens. This book is full of many different types of dogs, and the pictures are so fun to color. I don't stick with real life colors for the most part I like to spice things up a bit. The different designs used within each picture are great, and make it a real treat to color. I've learned that coloring reduces stress, and helps you relax, so having something fun and interesting to color is a major bonus when coloring. This books works well with Markers, Crayons, Colored Pencils, or Gel Pens. I tend to use Gel Pens more than anything, and I love the way the paper does not bleed, and allows the colors to dry up quickly, so you don't end up with smears and smudges. I think this would be an excellent coloring book for any Adult that loves to color, even more so for the dog lovers out there. This would make an excellent Birthday gift, or Holiday gift for those you love, throw in some gel pens, or colored pencils and give them a set they will love! Disclaimer - I received this product free for a fair, honest and unbiased review.

I love this book and love the fact that pictures are printed on one side of the paper only so you don't have to worry about bleed through. The price is right and the quality of this book is perfect. There are many dogs to color here to use your imagination on.

This is positively the cutest coloring book ever. I have no idea what the cover is made of but

everyone in the office could not keep their hands off of it - everyone wanted to touch it. But the coloring book is fantastic. Has full size pictures and then 2-3 pages showing the full size pages in small images so you can see the dogs in sports card sizes - which would be great to color, laminate and then trade! I loved the images of the dogs: fun, cute and full of movement. A great present for any dog lover. I am buying a second one for myself because I will never see the first one I got today again, it is somewhere in the office.

I love this adult coloring book. It is filled with beautiful and intricate photos of different breeds of dogs (my favorite are the yorkie and chihuahua because that's what my fur kids are). The designs are very well drawn and fun to color! I have not had a chance to do a lot of coloring yet (I have to do it after my daughter goes to bed or else she wants to "help mommy"....and I really want this book just for me, lol)! What I have done so far, I really did enjoy. It was relaxing and I look forward for some more "me" coloring time in the future. The book itself is very nice and the pages are thick, so no worries of bleed through with your gel pens. I have no complaints at all. **DISCLAIMER:** I received this Adult Coloring Book for free in exchange for my honest and unbiased review of the product. I would purchase again at full list price without hesitation.

A little silly but fun to color.

Only thing that makes it not a 5 is the pages are not easily removable....other than that it is excellent..I got it for my 83 yr old mom..she loves it
