# Intricate Ink: Animals In Detail Coloring Book

## Synopsis

Using black ink pens and colored pencils, American artist and illustrator Tim Jeffs is creating a veritable ink zoo of intricately drawn animals. Ever intrigued by their diversity and complexity, Jeffs strives to capture his subjects' essence in his portraits. He begins each drawing with extensive research into a given animal's conservation status, habitats, habits, and physical appearance. He then closely studies its skin or fur but lets artistic license dictate the patterns, textures, and colors he applies. He enjoys having the control of making it his own creation, and not just another photograph. • Jeffs does, however, pay photorealistic attention to drawing each creature's eyes, which give it a personality, express emotion and let the animal tell its own story as it looks back at the viewer. • The artist's story began in Maryland in 1965. Born the seventh of eight children, and from a young age fascinated by drawing, Jeffs was a national award-winning artist while still in high school. A scholarship to Parsons School of Design in New York set the stage for a twenty-five-year career designing books, logos, and websites for Scientific American, Sunset Publishing, Time Life Books and others. Jeffs began sketching animals for personal pleasure; his finely detailed drawings have gone on to garner worldwide attention.

## Customer Reviews

This collection of original art work, has been carefully brought together by its artist Tim Jeff, bound in a book that is beautiful as it comes to you with its excellent hard cover. It is filled with pen and ink, grey scale, black and white images of real animals from the land and the seas. This collection has been printed on quality paper that is a joy to color on with Water or Alcohol based markers and

colored pencils. Each animal is listed in the front of the book and each page is numbered so you can look up that species as you color your way through this wonderful book. This coloring book is going into my personal coloring library and when I finish coloring each picture I am going to use it as a coffee table book. The cover picture is included in this book and is representative of all of the other images. If you like the cover picture you will love this book, it is filled with animals intricately detailed in their own natural scales, fur or feathers. This book is not for everyone, but it is a gorgeous coffee table book with wonderful pictures just as it is. If you love coloring grey scale this is the very best grey scale coloring book that I have found so far. 1 This (11" x 8 1/2") coloring book is gorgeous, it comes with a heavy cardboard cover and is filled with 50 full page illustrations, printed one per page, (the back of each page is blank) printed on good quality medium weight, bright white paper. 2. Each image is centered on the page and leaves a 1" space between the image and the binding, this is plenty of space to remove a single image for coloring and framing. 3.
