## Customer Reviews

I really enjoy coloring horse designs, especially those with extra doodles • included for coloring fun. “The Wonderful World of Horses” is one of the best of this style horse coloring books I have. There are thumbnails of 30 of the designs at the front of the book. According to the product description, there are supposed to be 30 designs in the book but I count 31, so that adds a bonus page over what I expected in this book. The 31 designs are original drawings by artist Simone Phillips. Her designs have a flowing look to them even though the horse(s) may be at a standstill. A few of the designs also feature a young woman along with her horse. The designs are detailed with some small areas but not to the point of tiny spaces to color. I enjoyed coloring both of my first two projects and did both of them with a variety of alcohol-based markers. In one, I decided to utilize the white space to be the color of the horse to make the floral designs in its coat stand out. In the other, I colored the horse with brown but had a lot of fun giving it a mane full of color. This is what I found in coloring and testing this coloring book:31 Horse Designs with Floral Embellishments30 Thumbnail

designsPrinted on one side of thin, white, slightly rough non-perforated paperGlue BoundDesigns do not merge into the binding areaMost designs have a framing line around the outside and those that don't have the line have all elements à œfinishedâ • within the designl can get the book to open fairly flat by breaking the spineAlcohol and water-based markers bleed through the paperGel Pens and India ink pens leave colorful shadows on the back of the pageColoring pencils work well with this paper.
