# Phonics - Flash Cards: 44 Sounds And Key Words, With Learning Tips

## Synopsis

Phonics is a way of teaching children to read and write by using the sounds (phonemes) that we put together to form words. Ideal for practicing phonics with young children aged 3+, these laminated cards introduce 44 basic phonemes along with carefully selected examples. Each card has a phoneme on one side and a simple word and picture on the other side. Fun and easy to use with individuals or a class group, these attractive cards make an excellent tool to support the development of this important skill. The notes, games and activity cards included provide all the information needed for teachers, parents and carers to guide and encourage a child's learning journey.
