# The Good Book: The Magic Coloring Book

## Synopsis

A coloring book is always a good book because it is ripe with benefits that are just waiting to be reaped. Among these are improved handwriting, hand and eye coordination, confidence, knowledge, focus and language development, too! Where else can you a child get all these benefits without the usual pressure experienced in a school setting? Only in coloring books!

## Customer Reviews

The Magic Coloring Book is a cute little SAMPLE coloring book filled with coloring pages with a magic themeThe basics:Length - 27 pages in lengthIncludes - Cover; 2 page Table of Contents; Title page; 4 pages of Ads; 5 pages of the Benefits of Coloring for Children; 14 coloring pagesNumber of coloring pages - 14Size of coloring pages - anywhere from 1/4 of an 8.5"x11" page (magic lamp) to 1/2 of an 8.5"x11" page (most of the coloring pages in the book)List of coloring pages:Fairy with magic wandOctopus playing the pianoLeprechaun sliding down a rainbowMouse in a tea cupCrystal ballGenie with a big headWitch making a witches brew in a cauldronStar shaped magic wandOld hag witchOld wizardHorseMagic carpetFlower princess with wandMagic lampThoughts:Coloring page size - many of the images are too small and too detailed to color them in so they look nice once printed out, could have been largerTheme - while marketed as a magic theme, it has more of a fairy tale theme with an Aladdin vibe running through it (genie, lamp, carpet)Sample - not the entire book, only a sample of the pages in the actual hard copy of the bookNumber of pages - while listed as 106 pages, the total number of pages in this SAMPLE is 27, including 14 coloring pagesIt's a cute little coloring book with an interesting theme that goes beyond

unicorns, rainbows, and animals that seem to appear in most children's coloring books. Many of the images are too small to actually color in, and the fact that this is only a sample book rather than a full coloring book, despite being listed as 106 pages helped to determine my rating of this book
