Giant Days Vol. 2

Synopsis

Susan, Esther, and Daisy started at university three weeks ago and became fast friends. Now, away from home for the first time, all three want to reinvent themselves. But in the face of hand-wringing boys, à œpersonal experimentation,â • holiday balls, nu-chauvinism, and the willful, unwanted intrusion of à œacademia,â • they may be lucky just to make it to spring alive. Giant Days, the comedic slice-of-life series from creator John Allison (Bad Machinery, Scary Go Round) and artist Lissa Treiman, has graduated to a second volume.

Book Information

Series: Giant Days (Book 2)

Paperback: 128 pages

Customer Reviews

Allison does a wonderful job establishing personalities through dialogue and coming up with interesting occurrences, while Treimanâ€™s figures are beautifully animated in their movements and expressions. Itâ€™s the details that make it so involving to read. I quickly found myself caring about and rooting for the trio, even when theyâ€™re making silly (but age-appropriate) mistakes. As the series continued (extended from six issues to twelve to an ongoing), Max Sarin took over the art, while Treiman continued creating the covers. Volume 2 is where that switch took place, with Treiman illustrating the first two chapters (issues #5-6) and Sarin the rest (issues #7-8). Sarin has a thinner line than Treiman and tends to use a bit more exaggeration, but theyâ€™re still recognizably the same characters and settings. The volume opens with a school dance, which requires finding the right outfit and coming to terms with feelings before leaving for winter break. Thereâ€™s a visit to Susanâ€™s hometown and worry over

exams, complicated by the question of whether new romances will come between the friends. A lot of these interactions made me think *Giant Days* is the modern Archie, albeit with a slightly older cast. They're teen-focused stories that younger readers can use to dream about when they're old enough to go to university, and older readers can use to fondly remember their time in college. (The publisher provided a digital review copy. Review originally published at ComicsWorthReading.com.)

I was giddy with anticipation to read this book. I pre-ordered this because I knew this series was definitely something I wanted more of, and the second volume deliverers on this. The characters are fun and lovable and the college adventures continue. There are the ups and downs with plenty of laughs along the way. The characters all have such interesting personalities and the stories they have remind me of my college experience. If you liked the first book, you should definitely get this one.

Giant Days Vol. 2 by John Allison/Susan, Esther, and Daisy are back in this second installment. Their

hilarious shenanigans never fail to get them into off the wall situations, that will have you shaking your head in disbelief and laughing out loud! The art style is great but I felt something was lacking, unlike in Vol 1. I am REALLY enjoying this series, thus far! While I enjoyed Vol 1, I was laughing more through out Vol 2! I cannot wait to continue with the series!*Checkout & follow my blog:[...]

Really fun and funny story about young women in college and their friendships. Also I'm an American living in England and the Englishness of some of the details is entertaining. My husband really likes it too.

This is by far my favorite comic out there--love the characters and the humor! Very relatable and the art style is colorful and pops right off the page. The writing and art are equally awesome!

I am really enjoying this graphic novel series. I love reading about this trio of women and how they navigate their lives at university. I also love the illustrations.

Bought it the second it came out! These stories are just so much fun to read! If you just need something lighthearted, i'd definitely recommend Giant Days.
