All Aboard! National Parks: A Wildlife Primer

Synopsis

From the creators of BabyLit®: Every area of the world can be mapped out for adventure, and brilliant babies love the sophistication of traveling by train. This new board book series written by the husband and wife team of Haily and Kevin Meyers and illustrated by Haily, celebrates the unique qualities of each city while employing a fun primer element to tell the story. These books will have you and baby seeing the world by train and will turn story time into a globetrotting event. Perfect as a souvenir or as part of a geography collection for brilliant babies, the All Aboard! series will be pulling into your station next!

Age Range: 2 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

The book is adorable, and great for a budding family fond of national parks. However I was disappointed that the book contained no parks from the southeastern US. I know it's book meant for small children, who will enjoy the colours and pictures, but I guess this native Floridian was hoping to see the artistic interpretation of the Florida Everglades. Hopefully we'll see another park series from these authors that displays the wonders of the Southeast. The parks included in the book are: Acadia, Great Smokey Mountain, Grand Canyon, Zion, Olympia, Grand Tetons, Yosemite, Yellowstone, and Rocky Mountain.

This is a nice board book for younger children that takes them along a train journey to some of America's National Parks. Not only does it mention the parks, Acadia, Great Smoky Mountains, Rocky Mountain, Grand Teton, Grand Canyon, Yellowstone, Zion, Yosemite and Olympic, it has pictures of some animals, some activities in those parks and at the end of the book, it has a map showing where the parks are located and animal prints. Overall it is a nice board book. I wish that the state location had been mentioned for each of the National Park locations on their respective pages. I won this book in a Goodreads giveaway and am under no obligation to do a review. All thoughts, opinions, and ratings are my own. 4 1/2 stars

Um, okay. We just got this book in the mail 10 minutes ago and I've already read it to my son six times. He doesn't particularly like sitting still for stories but this one has him wanting more. He loves it because of the "Choo-choo" and all the animals. I love it because it promotes outdoor adventure and exploring National Parks, after all, his dad and I did meet while working in Yellowstone. This is definitely going in our favorite pile.

I love this book! The illustrations are fun, the book is sturdy, and I can take my son on a learning field trip around the United States, and also explain to him about the national treasures that are our national parks.

Love the illustrations...kind of a minimalist retro vibe. I bought this mainly to use as a decoration for a woodsy baby shower I was throwing. It was perfect for that purpose. The aesthetic is great, however the content is a little disappointing. There's just not much to it. My 1 and 3 year old daughters were equally unimpressed. So I'd recommend as nursery decor, but not as a quality book.

Art is wonderful but there isn't really much to read. Each page basically has a caption and a labeled animal.

Very colorful and easy to hold for little hands. Lots of things to point out and learn about for little minds. Not much of a story line, obviously, but fine for my 18 m/o twins.

Love this book and the places in it. My 16 mo daughter points out the animals on each page "moose! snake! bison!"
