Customer Reviews

Attached to this review will be a silent flip-through of the entire coloring book and some sample photos so you can make an informed decision as to whether or not it will work for you. I am a huge Disney fan. I lived near Disneyland for most of my life and, as an adult with children, I purchased annual season passes for many years so we could visit the Park throughout the year. Looking through this book reminded me of my childhood and of my children's childhood as well. It showed me how pervasive Disney has been in my life. My grandson loves to watch Disney movies during his TV time at our house and I get to revisit all of these characters for a third time in my life. The book is filled with many Disney Animal characters. The book is divided into three segments: Animal Heroes, Animal Villains, and Side-kicks. Because of the "side-kick" portion of the book, many of the major Disney characters make an appearance in this book. The designs are based on a wide variety of movies, including 101 Dalmations, Brave, The Aristocats, The Little Mermaid, Peter Pan, Dumbo, The Lion King and much more. Oddly, the lead-in on the intro page as a reference (by

implication) to Steamboat Willie; however, there weren't any Mickey Mouse designs in this book. Hopefully, Disney will come out with a book the family of characters, such as Mickey, Minnie, Donald Duck and Pluto, that we know from their older cartoons. What isn't mentioned in the product blurb is that these designs are done in a doodle style. Because of that, the designs are not only detailed but also have many intricate and tiny elements to color that will probably require special small nib pens, markers, and/or pencils.
