This is hilarious!! I love it! I've worked in the schools with teachers for thirteen years as a school social worker. When we get stressed out and are trying to problem solve during a brainstorming session, sometimes we take out our collection of adult coloring books and start coloring away. It's become a tradition now, and it's really catching on. It's a great way to relieve stress while still being able to be present and part of the conversation. It gets the "creative juices" flowing, so to speak. (I hate that phrase, but it describes it perfectly). Anyway, I thought this would be a funny alternate to our usual nature and geometric design coloring books. It's hysterical! It's a "chalk board" book, so it

has much less to color and less detail on each page. But it comes with both "snarky" slogans and some inspirational phrases too. They're designed as if they are written on the chalkboard, so not the usual flowers, swirls, and woodland creature themed coloring pages. The book is 8x11, which you want to pay attention to because many of the other coloring books in this price range are not--they make em smaller to save money, which is annoying. And, there are quite a few pages, which is another thing companies will try to rip you off with. The drawings are great quality. And creative. I'm quite impressed. I highly recommend this for any educator. It would make A great gift too. I was able to purchase this item exchange for my honest and unbiased review information so you can determine whether or not this product is right for you. I try to keep in mind the average price to the consumer and value the item accordingly rather than based on what they paid for it. Happy shopping!

Teacher Life by Papeterie Bleu is a Chalkboard Coloring Book. The pages are covered in a medium gray color to represent a chalkboard. Some of the pages have snarky, funny phrases while others have encouraging phrases! I know many teachers and they have all found this book to be entertaining. A great way of relieving stress and a fun way to relax. I'm not a teacher, but I've enjoyed coloring in this book and reading every page. This makes a great end of year teacher gift or a great gift for a teacher to be! I received this book as part of a preferred reviewer program for testing and a possible unbiased opinion.

This snarky coloring book based on all things teachers know, love, hate and will absolutely relate to is really wonderful to color in! Every page has a chalkboard background that is more grey than black, but the colors just "pop" off the page. Every page is one sided and thick enough for any medium you may want to use. Just have a page on the backside for an wet mediums in case they bleed through. Some pages have lovely flower designs, while others have intricate designs like mandalas. Most importantly, they are still different and fun. The quotes within this are absolutely snarky, hilarious and fun. I'm not a teacher and I have still enjoyed it. I do however, know a few teachers and they would absolutely relate and love this as well. My husband is going to school to become a teacher and is also working as an educational assistant and he found this book dead on and hilariously accurate. Overall, this is a wonderful and fun book that would be a great gift for any teacher especially at the end of the school year. And even if you're not a teacher there is still something in here you can relate to.*I received this book for free for testing and a possible unbiased and honest review.*

Teacher Life: A Snarky Chalkboard Coloring Book is full of hilariously re-latable. The pages are a nice thickness so you can use markers and not have to worry about the colors bleeding through. I was also excited to learn that Papeterie Bleu Adult Coloring Books has a full line. I received Papeterie Bleu Adult Coloring Books' Teacher Life: A Snarky Chalkboard Coloring Book at a discounted price in exchange for my honest and unbiased review. However this in no way influences my review. My promise to you is my honest opinion! Thank you for taking the time to read my review, I hope you will find it helpful. Was my review helpful? Teachers Rock! What a fun and zany book with cute teacher humor to color. I got the book in a very quick time with my prime account. The paper is nice and I can use my sharpies and all ink pens and they make coloring pages great....nice quality.

I gave this to my daughters daycare teachers when she graduated. They loved it and commented how they loved the snarky book. These ladies had a great sense of humor, so know your audience. It's cute and funny. Really gets into the details of a teachers life.

They have done it once again ^ This book is for more than just teachers. Its for anyone who has to constantly take care of someone else. Refreshingly hilarious, and the fact that its relateable just makes it that much more fun I have an awesome time coloring these. I received this book as part of a preferred reviewer program for testing and a possible unbiased review.
