Customer Reviews

If you love the biscuit books this book is a great addition.if you have no idea who biscuit is this is a great book still!my 4 year old begged me for weeks to pre order this before it was even available and it didn't dissapoint.its a great book for early readers it has frequently used words and even some easy to sound out words like yip and splash.my kids love this book and every biscuit book.

My 10 year old grandson has autism and loves the Biscuit books. He only had one and would read it every night. He's been reading 1-2 books a night now that he has more. Glad I got them for him.

The Kindle version takes a little getting used to, but once you do it's a perfect first reader for beginning readers.

One of my 3 yr. old grand-daughters favorite book series.
