Customer Reviews

I really love this password journal. There's more than enough room for all the websites I use. The artwork on the cover is really beautiful. When I was looking for an item like this, I was amazed at the amount I found that said "Password Journal" right on the cover, in very large letters. It's not something I really want to announce to the world, ya know? If you saw this in a drawer on a purse you'd just assume it's a little notebook or something. The book is organized alphabetically, so it's easy to find the website you're looking for. There's a place to put your contact info in case it does get misplaced. I plan to keep it at home, but you never know. I highly recommend.

Great little book which I desperately need for all my passwords. Plus its pretty butterfly-design cover looks nice on my desk :) Can't wait to transfer all my info.

the book offers tons of space for keeping your info organized , I do wish it were hardback though but all in all a really good value .

The product is as described and very nice but the delivery (hence the 3 stars) was terrible. UPS delivered to our street which has 8 houses but to the first house on the block. It took days to get it as these are the only people we don't know on our street.

Just love the internet password book! especially because it doesn't look like a password book. It looks like a plain book on my shelf
