As a total bookworm & a Mom, I'm trying to instill the importance of reading to my kids. I love when I can find a book that is not only enjoyable & fun to read, but helps me teach morals, values & good behaviors to my kids in a way that they understand & can relate to. This book does that very well. It is extremely well written. It's not "see the ball, see Jane, etc.", it works with words & great illustrations that draw you in. The artwork is beautiful & very well done. The writing is perfect for kids. It's fun, it is very easy to relate to for kids & adults.'Tooki', a wise owl, explains how everyone is different in their own very special, unique way and you should embrace & be proud of what makes you who you are & sets you apart as an individual. At the same time, you should respect & admire others' differences, as you want them to respect & appreciate yours. How boring would the world be if we were all the same, had the same interests, the same favorite color or favorite food?My 3.5 year

old has already had this book read to him 20 times or more, easily. He loves it. He asks questions....sometimes about the book, sometimes about the illustrations. I love that it provokes him to use his brain & be curious & his insights are just golden! I cannot recommend this book enough. It is just perfect for kids. As I said, my son is 3.5 & loves it. It would be great for kids of all ages. It really does a great job of impressing the importance of uniqueness & how truly special each individual is. It stresses that it "takes all kinds of people" and each deserves to be themselves & be the best they can be. I am Tooki would make a fantastic gift. Fun to read & teaches some great lessons at the same time.
