Average Customer Review: 4.6 out of 5 stars [See all reviews](#) (87 customer reviews)

Best Sellers Rank: #12,946 in Books (See Top 100 in Books) #1 in [Books > Arts & Photography > Painting > Landscape](#) #1 in [Books > Arts & Photography > Graphic Design > Techniques > Use of Ornament](#) #2 in [Books > Arts & Photography > History & Criticism > Themes > Landscapes & Seascapes](#)

Customer Reviews

I am pretty new into the world of "adult coloring books." I have downloaded several adult coloring books and browsed through them, so I do have some ideas to compare this book to. The book does live up to the title, as it is whimsical. If you love ornate trees, flowers, animals, fairies, and lots and

lots of detail, then this book will definitely please you. Also, to be upfront, I received a copy of this book for free in exchange for an honest review. This is a lengthy book, so I received the file in three pieces (I am sure that will not be the case here on). These divisions did divide the book nicely, as there are several parts. The first section of drawings is made up primarily of trees, windows, gates, and forest scenes. I much prefer drawings where there is detail but not so much that I have to spend hours and hours trying to finish one picture. While many of the illustrations in this book cover the entire page, there are some that do not. In this first section, there are several pictures that could be done in a shorter time period, which I like. Some of the images had a sideways orientation which some people may find harder to color, but that would depend on preference. The second portion of the book has some flower scenes, but it is mainly animals. A good many of these pages could be done in smaller expanses of time. Although they all have lots of detail, I really liked this section of the book. There is a great scene of a wooden swing hanging from a tree that has lots of detail but enough open space to really keep it from being overwhelming. There are also some really good images of animals such as a lion, cat, horse, owl, and even ants. These were well done, but, again, the sideways orientation on some of the pages may make them a little awkward to color.
