## Customer Reviews

Adult coloring continues to become more and more popular and we are really beginning to see the fruits to that explosion in popularity on the production side. 3-4 months back, there was a relatively small selection of comic related coloring books, but if you look now you will see that there are a large number of new books coming down the pipeline. Zenescope is clearly one of the companies that is serious about bringing lots of new content to the adult coloring scene. While this is only their 2nd release, they have at least 3 more coming very soon, including a Grimm Fairy Tales Box Set, and I expect that number will only continue to grow as time goes on. Comic companies, more than any other, are really perfectly suited to offer this kind of content as they already have a massive amount of artwork already finished. All they have to do is release the black and white line art for

their finished comics. It requires very little work on their end and is a great way for them to continue making money with a lot of that artwork. Zenescope hasn't been around nearly as long as companies like DC and Marvel, but they have been very successful over the last 10 years and have a significant amount of content they could bring to the adult coloring market, if they so choose, and I fully expect they will with a lot of it. Zenescope's first coloring book focused on their Grimm Fairy Tales series, which is by far their most successful series to date. This book focuses on their Alice in Wonderland series, which is also one of Zenescope's more successful titles. I am a fan of both series so I was excited to get my hands on both of them.
