# Color Your Own Civil War

## **Synopsis**

Whose side are you on? Pencil crayons or felt-tip pens? Reach a decision across 120 pages of all-out costumed warfare, featuring Steve McNiven's exquisitely rendered artwork just waiting for you to add the color! Captain America and Iron Man are the feuding Avengers leading the two sides of heroes that battle it out over the rights and wrongs of Superhuman Registration. This War is far from Civil, as friendships and teams are torn apart, and one thing's for sure - the issues are anything but black-and-white. Luckily, that's where you come in! From Shellhead's gleaming red and gold to the stars and stripes of the Sentinel of Liberty, these monochromatic Marvels are crying out to be brought to life in an eye-popping kaleidoscope of conflict. The battle lines have been drawn...now, can you stay inside them?

## **Customer Reviews**

I will attach a silent video to this review of a page by page flip-through so you can decide for yourself if it suits your needs. I'll also attach some of my finished projects and some sample photos of the pages as well. This is my first coloring book based on Marvel comics (I have a couple of other comic book coloring books from another company.) Unlike my other books, this is not a black and white version of a comic book. It is a coloring book with a lot of touches that I enjoy in my coloring books. The designs are printed on one side and the pages are perforated. Also, unlike other books, there are no words printed on these pages. There is a heavy use of black in the designs but I find it easy to work with those and use the black as a big element in my coloring. Something that should be noted immediately is that the product description, at the time I am writing this review, mentions 120

pages of a *œ*all-out costumed warfare. •. Nope, that is not the case. The book has 120 pages if you count title page and the front and back of each page but there are only 59 pages which you can color. The title page is simply printed and the back of each page is blank. It doesn't bother me that there are only 59 pages but I wanted to note that the description is wrong. I am having a lot of fun with this epic battle of superheroes. The ultimate battles between Iron Man and Captain America are where I started my coloring. While I don't test using these pencils, I decided to try my Marco Raffine Drawing pencils to see how they worked. If you are interested in what I use to test my coloring books and how I do my tests, you can read that info in the comments section below.
