Creative Haven Rose Windows Coloring Book: Create Illuminated Stained Glass Special Effects (Adult Coloring)

Synopsis

Based on designs of stained glass rose windows, these 31 images are specially shaded so that they will simulate the luminescence of actual stained glass when colored with wax crayons. Translucent colors work best to achieve this sparkling special effect. Pages are perforated and printed on one side only for easy removal and display. Specially designed for experienced colorists, Rose Windows and other Creative Haven® adult coloring books offer an escape to a world of inspiration and artistic fulfillment. Each title is also an effective and fun-filled way to relax and reduce stress.

This is a coloring book that purports to give the colorist the ability to have a âœstained glassâ• look to their coloring if they use wax crayons. I tried wax crayons as well as wax-based colored pencils, oil-based colored pencils, alcohol-based markers and water-based markers. While I did like the effect that I got with the wax crayons as well as I did the different effect that I got from alcohol-based markers, I can't say that it looked like a stained glass window. Using wax crayons gave the finished design a glossy look as well as a translucence. Using alcohol-based markers were translucent but not glossy. The other mediums worked okay as well but while some colors were translucent, others did not. Perhaps that was due to a color having a deeper pigment than others. Other than not agreeing with the whole stained glass concept of the book, I liked the designs. They appear to be

more of a gray scale design than one with special effects. I did note that all of the designs presented a moirÃ© pattern when I recorded the video and, to a lesser extent, when I took sample photos. Because of that, I assume that there is some sort of special print method being used to enhance the stained glass effect once the designs are colored. I found that I liked coloring the designs in the book even though I didn't feel that the end result looked like an illuminated window. The designs were easy to color if with mostly open areas to fill in. Because of the heavy dark grays, I'm not sure that someone with vision issues would find it as easy as I did.
