Customer Reviews

'The Thea Sisters and the Mystery at Sea' by Thea Stilton is a graphic novel for younger readers with an environmental message. The Thea Sisters are on a balloon voyage when they see something disturbing from the air. There is an island used by sea turtles for migration and someone has polluted it. They contact the media and Vissa De Vissen shows up to prove the pollution was caused by her cosmetic company rival, Richard Malefactor. Vissa digs up dirt by getting some of the Thea sisters to break in to Richard Malefactor's office. Meanwhile, the search is on for what is happening with the turtles on the island. I wasn't familiar with the series, and it is book 6, but I could follow along fine. I learned at the very end of the book that the Thea sisters aren't really sisters. I'm not sure how I feel about corporate espionage being a plot device in a children's book. I did like the environmental theme fine. I can see the appeal of this young reader graphic novel. I received a review copy of this graphic novel from Papercutz and NetGalley in exchange for an honest review. Thank you for allowing me to review this graphic novel.
