This Big Golden Book version expands the story into more detail than the "Little" version. It is still a very basic telling of the Finding Dory story, but spread out with more pages and different artwork. Great hardcover and page quality. It's a great read before seeing the movie in theaters, but totally avoid if you don't want to be spoiled of anything.

I love the Big Golden Book series! I can't speak to how well this book lines up with the movie since at this point the movie is not in theaters so we haven't seen it. But the story is very cute, the illustrations are bright and colorful and it is easy to read. As is with most of the 'Little Golden Books' you feel like as you read the story that huge chunks are missing from the plot so the story in essence feels altered... with this Big Golden Book version I didn't feel that way. While obviously the

story had to be shorted to fit into the book format, I still felt like all the key elements to the story were there. We are even more excited to see the movie now!

My daughter loved it!

Beautiful book with beautiful illustrations. I like the large size. My daughter who loves Nemo & Dory gets tired of this one!

Decent story from the movie. Just choppy compared to the movies storyline.
