National Geographic Kids Everything Robotics: All The Photos, Facts, And Fun To Make You Race For Robots

Synopsis

They fix spacecraft, dance, tell jokes, and even clean your carpet! From the tiniest robo-bees to gigantic factory machines, robotics is all around you. This technology isn't just for science-fiction anymore -- it's real and more relevant than ever. With stunning visuals and energetic, impactful design, readers won't stop until they've learned everything there is to know about robotics.

Product Dimensions: 9.2 x 0.2 x 10.9 inches

Shipping Weight: 8.8 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 starsÂ Â See all reviewsÂ (1 customer review)

Best Sellers Rank: #27,380 in Books (See Top 100 in Books) #16 inÂ Books > Children's Books > Science, Nature & How It Works > Heavy Machinery

Age Range: 8 - 12 years

Grade Level: 3 - 7

Customer Reviews

Everything Robotics was a gift to our family. My nine-year-old daughter devoured it. My seven-year-old son repeatedly studies it. (He reads beyond his age level.)Jennifer Swanson filled this 64-page gem with fun, geeky facts relevant today. The quick facts are paired with great photographs. The author explains EVERYTHING ROBOTICS in a way that children love. The writing style is fun and friendly, while very informative. I certainly learned plenty, too.The way my children return to the book repeatedly shows me they keep learning more about robots every time they read it. Robots are part of our everyday lives, even when we don't realize it. I highly recommend Everything Robotics.
