This book is really exceptional an effective than other books on this topic. I am an amateur musician

and I purchased this book for knowing about the basic of song writing. The author describes all the necessary tips in details. After reading this book I have just completed my incomplete song and it's true. It is really unbelievable. Grab you copy and get the benefits from it. Thanks Wright.

This book is more than amazing. What I like about the book is it teaches you how to create a good song that will instill so many minds or hearts. What I like about this book is teaches how to write or compose a song straight from our hearts. It's not just composing a song but putting your heart on a song.

This is my first book about song and music and I really love it. The topics are great and how it was delivered is very easy to be understood. I was enjoying the book when I found out that there were no pages to flip on, I hope you can add more.

I heard being a song writer is a challenge compared to writing a short story, I find song writing a little bit more difficult. However, after reading this book, I'm up to the challenge to compose a song. I might need some inspiration to get these things done! Hope I can make my own inspirational song someday
