Why You Love Music: From Mozart To Metallica - The Emotional Power Of Beautiful Sounds

Synopsis

A delightful journey through the psychology and science of music, *Why You Love Music* is the perfect book for anyone who loves a tune. Music plays a hugely important role in our emotional, intellectual, and even physical lives. It impacts the ways we work, relax, behave, and feel. It can make us smile or cry, it helps us bond with the people around us, and it even has the power to alleviate a range of medical conditions. The songs you love (and hate, and even the ones you feel pretty neutral about) don't just make up the soundtrack to your life - they actually help to shape it. In *Why You Love Music*, scientist and musician John Powell dives deep into decades of psychological and sociological studies in order to answer the question, "Why does music affect us so profoundly?" With his relaxed, conversational style, Powell explores all aspects of music psychology, from how music helps babies bond with their mothers to the ways in which music can change the taste of wine or persuade you to spend more in restaurants. *Why You Love Music* will open your eyes (and ears) to the astounding variety of ways that music impacts the human experience.

Customer Reviews

Very readable. Like a conversation with the author. I have been a student of music- mostly classical and religious for many years and have a great deal of other literature on the subject-but still this book hit the spot.

This is a great book. I'm a musician but I still learned a lot from this - and it's told in a funny, simple

(I like simple) way that keeps you turning the page. Highly recommended...

Very entertaining. A bit elementary for seasoned musicians and physicists. Still engaging.

Great book. Informative and funny - I learned a lot about music and why I love it so much

It covered alot of ground and quenched my mind my favorite hobby of Listening,but reading about it is cool to,the Store that I frequented they seem to be turning RUDE and IMPATIENT made me sad since they have such a grand collection of Books and magazines,they used to be a really cool place to shop but there phoney and no wonder folks mostly buy online nowadays :{ but great book
