Customer Reviews

â œThe Art of Laurel Burchâ • is a coloring book filled with 47 of the beautiful designs of the late Laurel Burch. I have been a fan of Ms. Burch for many years. I have purchased many items with her great designs and fantastic color palette â “ from socks with horses to cat calenders to purses with mermaids and much more. Many of her design themes are included in this coloring book but the focus is mostly on horses and cats with, unfortunately, very few dog or mermaid designs. I hope this means that this book is really just a volume one and that we will see more coloring books showcasing Ms. Burch's great talent. That the designs are taken directly from her sketchbook is evident in the varying thickness of lines. It appears that some designs were done in straight ink pen while others were drawn with markers. That makes the mix a little more unusual and a little more challenging in determining which medium to use to color the various designs. Not a problem but rather something to think about each time I sit down to color in the book. The book includes (on the inside of the front cover) some representative color images of her designs. The inside of the back

cover provides a view of the colors which Ms. Burch typically used. I may decide to go as bold with my colors or I may re-interpret her designs for myself in a different range of colors. That is the fun of coloring â “ you get to decide for yourself. Some of the images in the book appear to be cropped, possibly for the sake of fitting on the page. Others do not have all of the details included that I recall seeing in other products. At least one design in my book has very faint â œframingâ • lines surrounding it which probably should have been removed before publishing.
