Customer Reviews

This is the second of three new coloring books that I have purchased by Sue Toronto. There are part of a series four to-go size coloring books (8.25 x 5.25 inches) that are being released. While some of the designs and sayings have to do with friendship, others are more general in nature but are certainly things you would say to a good friend. I like the size of the book as it fits well in either my backpack or my hangbag. I can carry it, along with a small set of shorter coloring pencils, and have fun coloring while I am out and about. While I am reviewing each book separately and this has no issue on my review, I want to note that there are a number of duplications between the three books that I own. As a stand-alone book, not an issue. If you buy more than more, expect duplications. I don't mind as I simply removed my duplicates at the perforations and gave them to my daughters to color. The coloring book includes a number of colored sample photos which you can see in my video. It also includes tips from this artist about color wheels and also provides some

background on the artist herself. As usual with books by Designs Originals, there are journal lines and a quote on the backside of each design along with the title of the design itself. This is what I found in and about the coloring book: 28 Cute Sayings Designs Printed on one side of medium weight, slightly rough perforated white paper. Designs stop before the perforations. Glue Bound Alcohol and water-based markers bleed through the page. India Ink pens bleed through the page. Gel pens do not bleed through. Coloring pencils work well with the paper. Soft lead pencils go on with good coverage and layer and blend well.

The Color Friendship Coloring Book (On-the-Go Coloring Book Series) Paperback by Suzy Toronto is a fun coloring book for adults and teens. Most of the photos show a female or two or three who are happy, have crazy long hair, and the drawings are a bit wacky. That's what makes this so special. I have lots of female friends who love to color as much as I do and as the time goes by, I am either coloring for one of them or inviting them over to color with me in this book. The size of the book is a manageable 8 1/4" X 5 1/4" with the size of the paper being a bit smaller than that. The book can be tossed into my purse along with some colored pencils or gel pens and I can draw at the doctor's office, on a plane or wherever I want to take my coloring. Also, the pages are perforated which makes it so easy to tear out just the picture I want. When coloring at home, I usually tear it out so it will lie flat and I can turn it any angle I want. But when I travel, I usually keep the picture in the book which keeps it safe from bends and tears and the book also acts as a backing for my pens & pencils. So convenient. The smaller size also means that I can complete one of these in an afternoon rather than taking several days like the larger size do. I like both but there are sometimes I just want to finish what I started today. And, although they are quicker to finish, they are not just big empty spaces, they are really quite intricate drawings giving me the opportunity to color as bright and cheerful as I want. Although I am a product tester/reviewer and am fortunate to receive many products at a discount (or sometimes free) in exchange for my HONEST and UNBIASED opinion, this was a product purchase that I made at the same full price anyone could have purchased it.
