This book is totally different from most coloring books. Within the pages are messages that generate good vibes, for the people in our lives and for mother Earth. It's unique in that it isn't just another swearsy book or book of insults to color. It's message goes deeper than that. I would recommend this book to friends. The illustrations are beautiful and all one sided. The paper is perfect for colored

pencils, crayons or gel pens, but with a blotter between pages, you could also use markers.

This is an inspirational swear word coloring book intended for adults! It includes a variety of whimsical detailed illustrations of nature, animals, and abstract mandalas. Each artistic illustration has an inspirational, enlightening thought and a tasteful swear word. If you need a healthy outlet to help de-stress, then you must purchase this coloring book as it will bring you countless hours of amusement and relaxation.

This is one of the most fun swears books I've bought and I buy lots of them. Not only are there swears there are uplifting messages as well. There are mandalas pastoral scenes with cute little animals, whimsical creatures mermaids and general all around fun. This has pages that are NSFW and some that are. Everyone will find something to enjoy in this book.

Love, love, love this book! I love all the sayings and the pictures are fun to color. The only thing that would have made this book better is a PDF copy included for future use. Please think about it? See you in the Swears pages!

awesome swears coloring book. It isn't just swears words it has beautiful artwork for your coloring pleasure. I would recommend it to everyone that enjoys coloring but wants that extra little twist of adult language.

This book is great!! It has both swear words and enlightening phrases as well as great pages to color with them!! It has a little of everything! Great for beginner to advanced!! I guarantee you will have fun with this one!! Happy Coloring!!! Highly recommend this book!!!!

This is a great adult semi-swears coloring book. The pages inside range from profound to profane, and there's a variety of page styles ranging from portraits to mandalas. I've been having a lot of fun with it! I've attached 2 pages from the book that I colored.

This is one of the best of the "Swears" adult coloring books on the market Today. Sure it has "swears" words, but the emphasis of each page has more of a positive/inspirational message. What makes this book unique from some of the other swears books, and makes it really stand out is the lineart is that exactly-ART! Each of the pages are handdrawn and they are all completely different

from the "cookie cutter" style books that are currently on the hot swearsy coloring book trend. The artwork in this adult coloring book is very detailed, some of the pages are really detailed, and there are also a few designs that won't take you days to complete-which makes for a wonderful sense of accomplishment after a long and crappy day at the job, or whatever stressed you out. So grab your favorite colored pencils, fineliners gel pens, markers or even your kids crayons while they are sleeping and check out this Gem of a book. You won't regret it!! :) I have included a few colored pages from the book as well. This book is perfect for the beginning artist, and is also appropriate for the experienced colorist. Enjoy! :)
