Customer Reviews

I thought that it would be just another one of those small coloring book like the others....boy was I wrong! I have wanted to say some of the things in this book to a few people before. Plus I learned a few phrases I have not heard before. The paper is thick good quality. With nice art work behind the words. There is hours of fun to do. Plus if you have been biting your tongue all day at work you can choose a page that is what you wish you could have said, sit down relax and color the page that you wish you could have said. I find it a great way to deal with stress. This book it's definitely not for children. In fact, if you have children that can read, put it up where they will not find it(my fault my 16 year old was standing beside me when I opened it). This book should be rated R, or M, for mature audiences only. That said, for adults this is a humorous, entertaining eat to relax. If your sick of all the mushy, feel-good, sappy coloring books out there, this is for you! If you are easily offended, do not buy this. If you have a sense of humor, and don't get all uptight about some good old insults and cussing, then break out the pens, markers, and colored pencils and go to town. I received this product for free or at a discounted rate in exchange for product testing and review. I am under no obligation to provide a positive review and received no incentives or rewards for doing so. My goal is to highlight features and drawbacks that I would want to know about as a buyer, not hype the product for the manufacturer to increase sales. My remarks are sincere and true. I work very hard trying to write insightful and thoughtful reviews for each item. I hope that these reviews are helpful to others.
