Customer Reviews

So I have been coloring for quite a while now and have managed to come up with quite the collection of coloring books and supplies. As far as swear word coloring books are concerned, this one was not my first one. I already own about 8 or more other swear word coloring books. In fact, I have more of those than I do other types of coloring books. Swear word coloring books are my favorite to color. I think it has to do with imagining saying all of these words to people that deserve to be labeled with them. It is most definitely the best way for me to destress!! I gave this book 3 stars but I would have liked to give it 3.5. I liked it more than 3 but not as much as 4; if that makes sense to you reading this. Anyway, my favorite part of this book is that the images are only on one side of the page. Some people like to use mediums that bleed through the paper; such as alcohol based markers. It can be very frustrating to color and an image be ruined due to bleeding. I would have liked for the pages to be perforated because I am the type of colorist that colors on a single page rather than in the book. I like to spin my page around in order to get a better angle. I can always rip a page out but that can be frustrating too because they don't always rip out evenly; hence the need for perforations. You can also use an exact knife to cut them out or take them to a office supply store and have the binding cut off. But I rather not have to go through all that when it could be much simpler by having the pages perforated. There were 30 images to color and I liked some of them but others were hard to read. It seemed like on some of them the images were too "busy" and there was too much surrounding the word itself which made it hard to make out the word.
