Ancient Inca Geography (Spotlight On The Maya, Aztec, And Inca Civilizations)

Synopsis

Machu Picchu is one of the Seven Wonders of the World. Nestled in the Andes Mountains, the Inca people built a settlement that's in perfect harmony with the surrounding landscape. This title explores the geography of the ancient Inca civilization, which extended well beyond Machu Picchu. Covering land from present-day Peru to present-day Chile, the diverse landscape affected all aspects of Incan society, from daily life to terrace farming and irrigation. Readers will learn how geography and climate played a role in the development of this civilization. Colorful images and engaging text based on social studies curricula support classroom learning.
