Customer Reviews

I have two kids who are makers... crafts, stuff, and of course, food. When I saw this cookbook, I thought it would be a great way to let them choose a recipe or two to try and insert a bit of responsibility on their part. What's so good about it?** I picked the printed edition over the Kindle edition, because I wanted my kids to be able to really look at it together. I am so glad I did! The size

is great, about the size of a small pizza box. The paper quality is amazing. It feels good as you are looking through the pages, the photos and type are easy to read, and it is durable.** The design is modern and fun, yet not overwhelming. The pages have a yellow band at the outer side that gives guidance about the recipe on the left side (vegan, nut-free, etc) and lists the chapter name on the right side. I love the attention to detail, and it makes the cookbook itself so much easier to use.** I am overwhelmed by the variety included. Dietary needs including allergies and lifestyle diets are all accommodated. Meat eaters and vegans can coexist within this book's covers. I didn't realize that the author really meant the subtitle about bringing the whole family together...** There are tips for keeping it simple and cooking with kids at the end of a number of the recipes. More bonus points for creating a cookbook that is really useful again and again, even as the family changes.** Did I mention that there are dough recipes? That might seem obvious, but it wasn't to me. I really was excited when I saw the cauliflower crust recipe. Overall, this is a wonderful cookbook for healthy eaters, families who want to eat healthier, and kids who are forming their diet and lifestyle habits.

Up until recently, I was pretty predictable with the kind of pizza I ate. Always pepperoni. Boring. After being on Nutrisystem for 3 months, I grew to love their margherita pizza and started kind of broadening my tastes. First and foremost, I prefer thin crust, but that could be because I never had a chance to try real good fresh made crusts. This book is definitely for the pizza lover that wanted to try new flavors. It starts out with the basics and talks a little bit about the essential items you need to make the perfect pizza. It's all about getting the flavor of each topping in every bite so it suggests not to completely overload your pizza with toppings. two to three is perfect. You learn how to make many different types of crusts including cauliflower, which I've been dying to try since it's so much healthier! For each recipe there is a little color coded guide so you know if that particular pizza is nut free, vegetarian, vegan, dairy-free, and/or gluten-free. There are also fun facts and tips through the book especially tips about cooking with kids, because what kid doesn't love to help make their own pizza? Each recipe also tells you how many pizzas it makes and the size of each pizza, prep time, rise time for dough, and cook time. There is also a handy guide on how to freeze dough and use later. In addition to dough recipes, you will also find various sauce recipes. That alone should give you plenty of different options to make your own pizzas and experiment with flavor combinations. Then you get into different pizzas starting with your usual pizza parlor favorites, things like pepperoni, sausage, hawaiian. There are also recipes for more fancy pizzas like grilled clam and corn and fennel & fontina pizza with olive tapenade. There are even recipes for calzones and salads!
