## Customer Reviews

I should say my nephew loves it. I purchased this book for his birthday. He started reading the series at school and decided he would like to have them for his very own. I originally purchased 2 and he has already asked for more. I would say that is a pretty good recommendation. He is 8 years old.

My Son wanted to read this book, we check in stores it was not available I am really thankful to where I get when I do not find anything in store..This is definitely more than a book especially my son wanted to have before the birthday, quality was good, arrived before time we really appreciate that.

Excellent for upper elementary students when leaning to read non-fiction. Kids love to predict who will win and learn something about both animals along the way.

My third graders love the Who Would Win books. Great, readable and high-interest non-fiction. Complete with diagrams and other text features.

My 7 year old twin boys love this series. Just the right length for bed time. Informative and interesting.

Fascinating book. The whole family was very interested.

The tiger should have won look on the internet
