# Death's End

## Synopsis

With *The Three-Body Problem*, English-speaking listeners got their first chance to experience the multiple-award-winning and best-selling *Three-Body Trilogy* by China's most beloved science fiction author, Cixin Liu. *Three-Body* was released to great acclaim, including coverage in *The New York Times* and *The Wall Street Journal*. It was also named a finalist for the Nebula Award, making it the first translated novel to be nominated for a major SF award since Italo Calvino's *Invisible Cities* in 1976. Now this epic trilogy concludes with *Death's End*. Half a century after the Doomsday Battle, the uneasy balance of Dark Forest Deterrence keeps the Trisolaran invaders at bay. Earth enjoys unprecedented prosperity due to the infusion of Trisolaran knowledge. With human science advancing daily and the Trisolarans adopting Earth culture, it seems that the two civilizations will soon be able to coexist peacefully as equals, without the terrible threat of mutually assured annihilation. But the peace has also made humanity complacent. Cheng Xin, an aerospace engineer from the early 21st century, awakens from hibernation in this new age. She brings with her knowledge of a long-forgotten program dating from the beginning of the Trisolar Crisis, and her very presence may upset the delicate balance between two worlds. Will humanity reach for the stars or die in its cradle?
