## Customer Reviews

Love this board book for my 16 month old. She loves the photos of the real babies. Great bumpy texture on left pages in different arrangements (stripes, polka dots, etc). Fun copycat actions on each page like clap yours hands, reach your arms up high. Great early book for babies learning new words and action associations. It's a must for any baby's library! Only negatives for me: 1. A few more pages. Even just one more action page would be great. 2. I don't like that the last page says, "chubby legs". None of the other pages use adjectives and I don't think it's necessary to say "chubby". It isn't a big deal, but this really felt weird for me to read as it seemed out of place and unnecessary.

I got this for toddlers and it is too young for them. They still like it, though I think it would work better as one of baby's first books.
