In case you are new to the world of adult coloring or live under a rock like I do most of the time, Johanna Basford is a household name among adult colorists. Johanna is the artist behind the wildly popular (and no, I am not exaggerating!) Secret Garden, Enchanted Forest, and Lost Ocean adult coloring books. In fact, back in the spring of 2015 there was such a great demand for the Secret Garden and Enchanted Forest coloring books that both books were extremely hard-to-find and unavailable for some time. The Enchanted Forest Artist's Edition: 20 Drawings to Color and Frame is a curated collection of 20 images from the Enchanted Forest coloring book. The images are printed on uncoated, very sturdy and thick 400 (!!!) GSM light cream colored paper (card) sized 9.75 x 13 inches. The images are printed on just one side so you have the luxury of using any medium you want without having to worry about shadowing or bleed-through. The book's lay-flat binding permits all the pages to be easily removed. The Artist's Edition is ideal for those of you

who want to display and frame your work or give it as a gift if you can bear to part with your masterpiece. That being said, I have to confess that I mixed feelings about the Artist's Edition. And to be clear, while this wasn't quite a coloring book love connection for me, I am confident that others will absolutely adore the Enchanted Forest Artist's Edition: 20 Drawings to Color and Frame. In all honesty, I prefer the Enchanted Forest coloring book to the Enchanted Forest Artist's Edition. Perhaps it's not fair for me to compare the two since they both have different purposes but I do have a few quibbles.

These are some of the beautiful designs that originally appeared in Joanna Basford's besting selling "Enchanted Forest" coloring book. Of her three books thus far, I must admit this is my favorite though I like and enjoy all of them. I recently purchased and reviewed the UK version of this book and promised to include a list of the differences between the UK and the US version. I'm pleased to say that apart from slight wording changes on the cover, there is no difference at all. They are published by the same company with the same materials. The exact same color, size, weight, and they work identically with various coloring mediums. I'm really pleased that Ms. Basford has begun publishing artist's editions (starting last year with "Secret Garden".) The Artist's Edition of Enchanted Forest (compared to the original book) is larger, the paper is considerably heavier and, of course, these are printed on only one side of the page which allows you to color the design with any medium you choose. There are 20 designs in the larger format book which is a small subset of the designs in the original book. Some of my favorites are included but then again, there are some that did not make the cut. Perhaps they will show up in the calendar scheduled for later this year or who knows if there may someday be a volume 2 of the Artists Edition (hint, hint). In some cases, the designs in this version are slightly enlarged compared to the original (for example, the hot air balloon and the fox) but in most cases the designs are slightly to more than slightly smaller in size. It seems as if the width of the design caused some to be decreased.
