Customer Reviews

I bought this book from another store for slightly cheaper, but looked at the images here before purchasing. I really enjoy this book. Yes, images do repeat, but I like that because it gives me the option to color things in several different ways. I can add different designs and textures to repeat images to come up with a new outfit altogether. This book has a ton of different art styles and sizes of pictures to color. I will say this book is more for teen and up because of the fine details in the pictures. I think any fashion lover would love this book. I'm including a few images that stood out to me. This book has many hours of coloring fun inside of it, offering you clothes, jewelry, shoes, patterns, and more to color. I would suggest this book to anyone who likes fashion, likes to color, or likes both.

Nice collection of all things fashion, from prints and bow on top of head to socks on feet. I like that some pages are multiple images of same model in similar outfit. Gives an opportunity to try different colors or maybe even an opportunity to add your own print. Drawback is that, once again, images

are on both sides of paper limiting the type of media you can use for fear of leak thru.

This books is nothing like I expected. There wasn't what I call fashion on the pages. Some pages were the same figure about 20 times. I would not recommend this book. I sent it back at this price I couldn't keep it.

The BEST adult coloring book EVER! So many supwe cute pages to color. The variety of styles and clothes and models and shoes and accessories is amazing. You won't regret buying this coloring book!
