Polyamory Revealed: A Practical Dater's Guide To The Pursuit & Maintenance Of Open Relationships

Synopsis

Discover how to pursue and maintain polyamorous relationships! Before you read any further, answer these simple questions: Have you finally grown tired of serial monogamy? Do you ever wonder if there is any other way to have a more varied, fulfilling love life? Have you been pondering the idea of openly and honestly developing relationships with more than one partner, but are worried about what others may think? If you answered "yes" to at least one of the above questions, then this book is just what you need to get informed, grow confident, and take the steps necessary to get exactly what you want out of some of your most important relationships! *Polyamory Revealed: The Practical Dater's Guide to the Pursuit and Maintenance of Open Relationships* was written with curious, open-minded, free-spirited individuals like you in mind. In these minutes, you will veer beyond the taboo surrounding plural partnerships and gain a deeper understanding of what poly love is really all about. You will learn about the different models of polyamorous love and the important poly lingo that every beginner should know. You will discover the best ways to handle jealousy, insecurity, and all of the other problems encountered by poly folk. Because after all, free love does not equal carelessness!

Customer Reviews

Although this is 'touchy' subject, this book deals with polyamory in a very relatable way. I have been monogamous all my life, however I have always considered the alternatives. I think we, as humans, all have different needs - there isn't a one size fits all solution for relationships and this clearly addresses this. If I felt like this was something I wanted to pursue, this guide outlines plenty of

practical and actionable steps you can take to explore. Highly recommended if polyamory is something that has been on your mind!

In every page of this book you can learn new things about relationships. If you want to find more about different kind of relationship, and find many interesting things, you will have an interest in this book. This book describes real situations that are happening. But, in this book, you have much more than that; you can find more about different relationship. So if you want to find more about open relationships and much more, read this book and find out more interesting things.

Very insightful take on this ever-controversial topic! I first of all congratulate the author for putting the book out there - going against the grain of 99% of people is something we need more of it. I also thoroughly enjoyed the book. It is a short and concise read that introduces us not only to polyamory - but also away from the age-old monogamy that we know so well. It offers great arguments in favor of polyamory - and a plethora of new vocabulary!. It has great insights on how to deal with jealousy or insecurity, elements I am sure most people will identify with if they ever have thought of going into polyamory. In short, it's a book I would highly recommend for the modern couples of the 21st century.

Suppose you are in love with a woman whom you just can't leave and without her, your life's meaningless. But one day you know that she is poly amorous. What will you in that case? Do you have the solution? By going through this book, you will get your solution and all the answers that you need. The book is about finding and accepting one's vulnerability that will help you to develop not only meaningful but also close relationships with people around you. It's about being honest about who you are and what you really want from your life. A good work from the author to present a complicated relationship easy to the readers.

I was always at loss when it came to this topic .How partners adjusted and kept the 'Secret". But this book describes in detail all that goes into the relationship and how to maintain it. A very touchy subject but it has been very deftly dealt with by the author. If I come across who need help on this topic , I will recommend this book.

A must buy for anyone who has been thinking about or considering a Polyamory relationship. Though it may not be for everybody, if you are curious about pursuing this then you should definitely

pick this book up first. Author Charlotte A. Rose highlights the positives and negatives of such an arraignment and really delivers some good insight.

I found this book very insightful and informative when it comes to relationship. This book truly gives you a path to follow on the road to successful Polyamory relationships. Men out there listen clearly. This is the only book you will ever need. I highly recommend this book! Charlotte A. Rose is fast becoming one of my favorite authors.

I never got the advise that I gained from reading this book. This actually explains what is inside of me without putting so much pressure on me. I can even understand myself now, Thru this book, I have now a brighter view at everything and I am grateful with this book. Charlotte Rose is such a good adviser! Will surely look more of her books from now on.
