Customer Reviews

I just went through this as I downsized from a 1500sq ft house into my RV so to say I went minimalist is an understatement. The freedom I feel now is amazing, all that stuff did was weigh me down. This wonderful book is full of outstanding ideas and ways to downsize just a little at a time or if you want a lot at a time but it gives you tips to do it your way. Don't worry what others think of your lifestyle choice its your life, right! I cannot say enough good things about this little gem of a book or its author, buy it you won't be disappointed.

I'm glad I got this book. I was thinking about going through all my stuff and eliminating stuff but I just haven't gotten around to it. It has really motivated me and made me realize that I don't need all this stuff. I hold onto clothes thinking that one day I might need backup clothes. What exactly is backup clothes anyways?! After reading this I feel I'm ready to donate slot of stuff to people who really need it.

I don't wear designer clothes. I don't carry a designer purse...I only own one, not 4 or 5 like most of the women I know. No mani's or pedi's because I can file and paint my own nails. The list goes on and on. However, as much as I am totally comfortable and happy living this way, I can't say the people in my life that I called friends feel the same way. They have tried to shame me into paying a crazy amount of money for hair cuts because they felt my hair "looks bad," or I must go shopping for new clothes because I "need a new style." That is code for "let's go and spend \$300 on a pair of shoes." My clothes are clean, in very good shape, and fit well. I might not be the mosy stylishly dressed woman in the room but I'm not wearing a potato sack either. (Smile!) My hair is actually in great condition because I don't blow dry it, use a flat iron, use "product" in it. I make my own shampoo and conditioner so there are no harmful ingredients that will affect me or the environment. They don't get it. I have lost all of my "friends" due to my choice to live minimally. And before anyone starts to judge me and accuse me of trying to convert those people to my way of livivg, I want to say that is not the case. My view is 'live and let live.' If you choose to make a huge change to your life just be aware that there might be folks that just won't understand and could potentially walk away.
