Customer Reviews

I received this book as a surprise from my sister. I love the borders and the women's pictures that blend into the borders. As a flower grower and a member of a local garden club, the lovely fantasies projected in each drawing will insure the application of both color and spin toward other fanciful expressions. Can't wait to share this book with friends who are also avid coloring book enthusiasts!

This book is a feast for the eye, with beautifully detailed illustrations. I love the fact that it showcase women from different parts of the world. Each image is framed by intricate borders, which stir one's imagination and creativity. The images are a lot of fun to color. Each page is printed twice, so there's an opportunity to create a different color scheme, or share with a friend. I will be buying more copies of this book to give as gifts.

I just got my book today and I love it. The images are clean and realistic. The detail is beautiful. I cannot wait to start coloring. . I appreciate the images of women that look like me. The pages are

one-side and I have two opportunities to create a work of art. This book was purchased with my own funds.
