From the Artist:Â As an artist, color is a thing of magic in my life. Color creates shapes, forms, and feelings in the artworks I paint. Laying color onto a blank page is when I feel closest to true magic, when I feel happiest and most relaxed, and it's through what I create that I share my love of magic with the world. Through my coloring books I want to share that same magic with you.Â The artworks in my books are based on my completed paintings, which I have painted over the last ten years as a professional artist. I have created the coloring designs to be intricate and detailed but still fun and accessible. There is something for lovers of meditative detail while simple enough to not be overwhelming for younger colorists. When designing my books I decided to print them with two copies of each design, because I know as an artist there are always so many possibilities! I wanted to give everybody the chance of a do-over with every design, because I also know mistakes can happen, and even the fear of mistakes can hamper creativity. I want you to be able to create without fear! Try a different medium, or a different color scheme. The double pages are also a chance to share the magic with a friend, child, parent, sibling. Because sharing your creativity and joy of color is the best magic of all.

Customer Reviews

I have most of Selina Fenech's coloring books and grayscale coloring books and I always enjoy her design style. "Goddess and Mythology" is another fantastic book in her series. In this coloring book, there are 25 designs which is great as-is; however, as usual for Ms. Fenech, she gives us two copies of each design. That provides 50 coloring opportunities in this book. It gives me the option of coloring designs two different ways or to share a copy with someone. Either way, it's a good thing. The designs have many details but are not intricate or with tiny elements to color for the most part. There are a couple of nudes with very strategically placed elements so that nothing is showing. I've been playing with shading and have tried adding an element of clothing transparency to some of my more recent projects but that is my design choice rather than anything in the coloring book. While the designs are printed on one side of the page, on the page opposite each design (backside of previous design page) and in light gray print, Ms. Fenech has provided the name of each individual. Along with the name, she has given us a short blurb on the history of the mythology/goddess. I found that extremely helpful as some of these stories were new to me. As I am coloring, I can always look up the name and get a more in-depth explanation but, for the most part, the amount of information provided in the book is sufficient for me. The designs are based on stories from around the world "from Greek and Roman mythology to that of the Vikings to the Far East, from Africa to England.

Book As with Selina's previous books, Goddesses and Mythology is a subtle deep purple with a partially coloured image from the interior on the cover. The soft matte card cover is 27.9cm x 21.6cm and the book is 108 pages. The spine is glue bound, and quite pliable after some use. The paper is of moderate thickness and texture. A number of layers are easily achieved on the paper, with both oil and wax

based pencils. Waterbased markers shadow, any other wet media will bleed. Make sure to have a few pages of standard paper behind the image to catch any bleedthrough. Images are single sided, and surrounded by a border to prevent the image from entering the spine. The facing page has the name of the image for easy reference to the original. This book contains , 25 different images, each one repeated, for a total of 50 images. Images I have wanted a colouring book with mythological imagery ever since I began colouring - and this one fits the bill. Selina's style is very consistent, with a delicate, traditional fantasy style that lends itself beautifully to colouring pages. These are no exception, with each image having been either converted from original artwork or drawn for the purpose of this book. One very handy feature is a short paragraph about the Goddess being pictures underneath the name on the facing page. This is very useful for referencing or researching if you want to! Linework is consistently thin throughout, and intricacy is moderate through the book with a good mix of smaller and larger spaces throughout.
