âœMythical Mermaidsâ • the latest fantasy coloring book by Selina Fenech. She is one of my favorite fantasy designers and this is my first book by her that is devoted to mermaids (though she does have an earlier coloring book with a similar subject.) The designs are of primarily mermaids though there are some mermen and a man or two who has been saved from a watery grave by a beautiful mermaid. Some of the designs include more than one mermaid but most of them focus on a single beautiful female. Once again with Ms. Fenech's books, I'm really happy that the book contains two of each design because it gives me the opportunity to explore each in different colorways. I generally go towards light and clean looking lines in my coloring but having a second

copy of each design gives me an opportunity to try different techniques and darker colors and heavier shading. The mermaids are all gorgeous, of course. There is a hint of nudity but all of the female parts are well covered by hair and whatnot. The mermen are without shirts but that doesn't really matter in any case. There are no children in this book and most of the poses are highly romanticized while stressing the female form of the subject. For my first two projects, I chose to use alcohol-based markers. I have been using pencils to shade but for these two, I tried using my markers for shading as well. I will provide a more detailed description of the physical book below but here is a quick overview of what I found: 25 x 2 Mermaid Fantasy Designs Printed on one side of page Paper is white, thin, slightly rough (tooth) and non-perforated Designs do not merge into the binding and there is plenty of room to remove pages if you wish to do so.

Artist - Selina Fenech Pages - 108 Publisher - Fairies and Fantasy PTY LTD Book As with Selina's previous books, *Mythical Mermaids* is a subtle deep blue with a partially coloured image from the interior on the cover. The soft matte card cover is 27.9cm x 21.6cm and the book is 108 pages. The spine is glue bound, and quite pliable after some use. The paper is of moderate thickness and texture. A number of layers are easily achieved on the paper, with both oil and wax based pencils. Waterbased markers shadow, any other wet media will bleed. Make sure to have a few pages of standard paper behind the image to catch any bleedthrough. Images are single sided, and surrounded by a border to prevent the image from entering the spine. The facing page has the name of the image for easy reference to the original. This book contains , 25 different images, each one repeated, for a total of 50 images. Images As the title suggests, this is a book full of mermaids. The artwork has been converted from the original artwork done by Selina Fenech. The art style is consistent throughout the images. The artwork varies quite a bit, with singular mermaids staring through the page, mermaids embracing, spunky mermaids showing attitude, others swimming around a sunken ship. The line thickness is consistently thin throughout, although the artwork is clean and consistent, so it is not difficult to see and interpret the images. Intricacy varies a little, with most images containing smaller detailed areas and some larger areas perfect for blending and shading. Health The natural colour schemes that accompany mermaid/nautical scenes is quite soothing and would be very well suited for times of anxiety or pain, or just a low day.
