Now that there are so many different coloring books for adults I knew I had to have one that really spoke to me, and this is one that I just could not help but get. I have the mouth of a sailor so I just had to have a book that reflected that and this one has diffidently reflected my attitude towards life. I love all the different phrases and different pages of coloring. Most of the designs and nice and intricate and they are pretty when colored. I am not impressed with all the black dots on the back of the page and on the sides but it is something that you get used too after a while. There are several different phrases that I had never heard before and it makes it all the funnier. I love the fact that the pages are nice and thick and I do not have to worry about ripping them easily when coloring on them. I have had no problem with color transfer. I have not poked through any of the pages and I will say that I really do love this book. The binding is done very well and I have not had problems with it breaking down. I have had the privilege of receiving this product at a discount price or for

free.

This coloring book is super fun for the not so mature adult in your life! There is something almost therapeutic about coloring curse words while relaxing with an ice cold beer after a long day at work. I can't figure out what about this coloring book is glowing but I do love the black pages it really makes the coloring come to life on the page...maybe that's the glowing effect?! This is the second immature adult coloring book I have purchased from this seller and I must say the books are top quality. They have been made with an easy to open binding that allows you to open it up and color without any issues. The paper is high quality so much so that I feel I could easily use markers to color and would have no bleed through issues. Overall, this is adult coloring as it was meant to be a little off color but oh so relaxing! I did receive a discount on this item in exchange for my honest review. The paper is excellent quality, and the black background helps to hide my mistakes when I color too aggressively and go out of the lines. Great way put some love into a memo when someone just needs to hear the truth! Haha! It has nice pages and crisp lines. Perfect for any coloring medium of choice: markers, pencils, etc. The images are single sided, so you can use which ever medium you prefer without ruining images on the backsides. The only downfall is that I wish they had perforated lines to tear the pages out and display our favorites in a frame.\*I paid FULL PRICE for this item, and I am under no obligation to leave a review, positive or negative\*

This obscene adult color book is hilarious! It has thirty-one nasty, coloring pages filled with naughty words and phrases all mixed into artwork. There are only two pages that contain a word that I personally find offensive. That is only my personal opinion, so I will just rip those two out and no problem! These pages all look like copies of hand drawn art work. You can tell they are definitely not computer generated or drawn. I can't wait to have an adult coloring session with my sisters!! received this item at a discount discount for for my honest review.

The swear words books absolutely make me giggle every time I look at them. Great artwork incorporated with a hilarious in your face don't take life too seriously aspect. I purchased these for myself and all of my adult children. They also have gotten a lot of laughs out of them. A warning, don't purchase if you are offended easily or prudish, but I think they are GREAT! I received this coloring book at a discounted price for my honest review

Super funny. I bought this for my boss and all I heard today was her giggling and asking if anyone had crayons. It's not for a sensitive person, they really have to have a potty mouth. My Boss put duct tape on the cover so she could leave it on her desk. It's a great gag gift . I purchased this item at a discount for my fair and honest review. So glad I bought this because I could actually get work done while the boss was coloring.

I like this book although i have not heard of half of the words or word combinations in here. Great for a good laugh and very relaxing if you love to color. Would make a great gag gift for that special person who has colorful language. I received this product at a discounted price. Thank you for allowing me to review it.

I ordered this for my husband for his birthday. He's a graphic designer and likes to relax by drawing, so I thought maybe he'd like coloring. Since the adult coloring books have become the new fad, this "adult" adult coloring book is a great option. This is a fun book, however I wish the pictures were drawn a little better and more artistically. You definitely have to keep it out of the kids hands though. I have received this product at a reduced rate in exchange for an honest and unbiased review.
