# Midnight Mandalas Vol. 1: A Stress Management Coloring Book For Adults

## Synopsis

Come Over To The Dark Side... ...with this unique Mandala black background adult coloring book. We took the 50 Mandalas from our popular [The World's Best Mandala Coloring Book Volume 1](#) and did a bit of black magic on them to turn them into fantastic white Mandalas with all black backgrounds. Think of the possibilities of coloring these with bright neon pencils or markers and remember, as with all of our books, each image is printed on its own page.

## Customer Reviews

I love this book and got hooked immediately. I have seen other midnight( black background) books and they were not attention grabbing. Her images make you want to color them. This one is a take along size, just grab some gel pens and the book and go. So convenient for on the go coloring. The images are clean and clear and the paper is a great weight. My gel pens did not go through the paper. If you love mandalas then this is a must have, especially if you like to take your coloring on the go..... The images are printed on one side. I colored in the book ,however you can take them out or scan them without taking them from the book because of the size of the book.

My favorite mandala book! So many opportunities for adult coloring enthusiasts of every level. Love using my neon gel pens truly POP with these black backgrounds. Every adult coloring enthusiast must have this book in their collection. When I can't make my mind up about what book I'm going to use, I go to this trusty gem!

If you like coloring mandalas, you're going to LOVE this amazing book from Penny Farthing!!! The black background for these beautiful drawings, makes the color just "pop"!!! I couldn't put it down after my first completed coloring!!! Absolutely love this book!! Thank You Penny for such an amazing book:))))

This is an awesome coloring book! All of the pages are black background which makes the colors "pop" off the pages! The pages are thick but you will need a backer page because permanent ink will bleed thru.

I LOVE this book!! The black backgrounds are perfect for making the colors POP! I've used ultra-fine point sharpies, gel pens and Crayola super tips and all of them work wonderfully with the pages. The sharpies do bleed through a tiny bit, so an extra sheet of paper works as a good barrier. I definitely plan on buying volume 2 and 3 when it comes out!!

Most of the mandalas were great. A few were very similar to another one in the book, however. That didn't make me enjoy coloring any less.
