Customer Reviews

My 4-year old daughter loves Blaze (me, I'm more of a Zeg girl), and *Bouncy Tires!* is a favorite at our house. If you have watched the show, you'll probably recognize the story, as it's one of the most ridiculous episodes so far - which is why it's so fun. The book is a 'novelization' of the episode of the same name, though the story here is missing a few scenes from the TV version. If you are unfamiliar with *Blaze and the Monster Machines* on Nick Jr, the show introduces STEM (Science, Technology, Engineering, and Math) concepts in a way that is easily digestible for the Pre-K set. This particular episode introduces the concept of adhesion, while reinforcing the show's regular theme of scientific methodologies like testing hypotheses. Forget the part about this being recommended only for boys. If your child likes silly stories, trucks, or even dinosaurs - this is a Zeg the dinosaur truck centered episode/book - s/he might like this one. The illustrations are crisp and faithful to the show, and the binding is typical of the Little Golden Books imprint. The plot is recognizable from the television show, though condensed into a 5-minute read. Great for pre-bedtime and pre-naptime reads, and

fun to read aloud.

Blaze and friends is the perfect story for toddlers, it keeps their interest the whole story . great colorful pages and pictures.

Nice book for a Blase fan.

This is my son's favorite book right now. You can't go wrong with anything Blaze though!

This is a really cute book and it was well loved by both of my grandkids!!!

So cute, great book for any little one who loves monster trucks!

Just like the episode. It's my sons favorite book haha
