This book among others sits on my coffee table and my 9,7,4 yr olds have looked at it and enjoyed reading it almost daily since we received it! They really have sparked an interest in the idea of learning tennis! We absolutely love the creativity the author and the illustrated put into this book! It catches the eye of adults and children! Thank you for putting your hearts into this book!

This book is easy to follow, informative, and great not only for children but really for any beginner that's wanting to understand the fundamentals of tennis. From knowing Mr. Braun personally he is an excellent tennis coach who is genuinely interested in each of his students and encourages them to better themselves not only in the tennis realm but in every aspect of their lives.

I started playing tennis at a young age and I want my daughter to do the same. This book is a great starter resource for her to get into the sport! I can't wait until she can beat me.

Cool book. I've read it with my five and six-year-old girls several times and they enjoy it. It's really helped to get them familiar with the basics of tennis.

Illustrations and content are terrific. Great for my 11 yr old daughter.

Great book to interest kids in tennis or to keep them engaged if they have already picked up the sport. Perfect as a gift as well!
