## Customer Reviews

Tripp speaks the truth! There is so much great information in here that is not on his Youtube channel. His tips and techniques really helped build my confidence and approach women. After reading this book I have gotten more dates and had more success with women than at any point in my life.

Tripp knows what he speaks. This isn't one of those magic books that teaches you how to become a stud, without any depth or substance, just to get laid. This really is about your confidence first. Tripp puts in common sense terms ideas that apply not just to dating but really making an impression with anyone. It's an easy read, and probably something you will come back to time and again. Highly recommended for anyone interested in self-improvement.

Last week, my friend brought this book with him to the coffee shop. I read a few pages and I was hooked. I'm naturally more quiet and lowkey kind of guy and I could tell from the first pages, this was written for me. I really like how Tripp doesn't focus on changing you into a guy that goes clubbing 7 times a week. This book really showed me exactly how to own who I naturally am and still be able to attract girls that I (wrongly) thought were way out of my league. My favorite part of this book is the actionable advice. They're priceless. I mean I go through a ton of dating and seduction advice blogs, videos and books. I can name every major dating coach out there and techniques, but wow. I have never seen most of the advice given in this book which is damn amazing to me. I'm using the steps in this book almost every day (because they're just so easy) and by doing so, I've removed so much stress from my dating life. Lately, girls are finally texting me first, asking me out on dates and flirting back "which is what I truly always wanted. Thanks so much Tripp. I really appreciated this one.

The ONLY book that you need to flirt and seduce woman. Step by step in how to attract the woman that YOU WANT effortless and naturally. Your mindset to approach beautiful woman, how to approach her and what to say, flirting, how to talk a girl, and more ... After you read this book you will have all "tools" necessary to have the woman that you want and desire

I don't usually give glowing reviews of books, even ones that I absolutely love. Still, this one was worth my time and effort. The explanations on socialization and how it affects every single decision we make was literally like taking a veil off. If you are a man who has always felt as though something is missing, or that you aren't good enough, or that women are just absolutely illogical,

illusory creatures that you could never have any real success with, then this book is for you. Digest it, and allow your life to change. By getting the correct understanding and applying the principles detailed inside, your life can't help but become better.

Tripp's ideas are clear, concise, and effective. Any man who looks to improve himself and his interactions with the world around him can only benefit from reading Magnetic. There is no filler. Only practical easy to understand advice coming from one of the best experts of positive social interaction. Highly recommended.

Tripp provides a simple, clear and easy to follow format for any guy to develop himself as a man, approach a woman and have a successful dating life. I myself have worked on this area of my life for nearly a decade and have read just about everything on this topic and still found this book valuable on my journey.

If you enjoy reading books with a lot of fluff and flowery language, this is not the book for you. Tripp has a very clear and flowing writing style that allows for a quick read and immediate action. From cover to cover, Tripp includes a lot of tactics that will not only help you get the girl, but also get the sale, the promotion, and make your relationships better in general. I'm a married man of 5 years, and after applying The Eight C's that Tripp outlines in his book, I have noticed a long lost twinkle in my wife's eyes that I have not seen in well...5 years. I'd recommend this book to anyone struggling to find a girl and who wants real, no-nonsense guidance from the advice man himself. I'm sure Magnetic will help you find the woman of your dreams!
