## Customer Reviews

Discovery Kids Splash in the Ocean! is an absolutely adorable book for little ones. My son is a year old and one of his favorite things to do is to push buttons. He also just so happens to love fish so this has quickly become his new favorite book. He loves to sit and push the buttons while I read about all the animals. My older kids love to read this book because it teaches them about the creatures that live in the ocean. The illustrations are beautifully done and keep my kids attention throughout the whole book. Discovery Kids Splash in the Ocean! is a terrific book and I highly recommend it. Disclosure: I received product(s) for free, in exchange for my honest review. I only recommend products I've used personally, and believe will be good fit for consumers.

This is an adorable oversized board book with sounds to 10 different ocean animals. It is perfect for any animal lovers and sure to keep kids busy! The pages are thick cardboard and will stand up to the test of time. Throughout the book there are facts about the various animals. The pages are not overwhelmed with text but rather a few short sentences in bold font. The animal sounds are even

written out for each animal. It comes with the required button cell batteries and its ready to go! You can change out the batteries too when needed. I received this book to review in exchange for sharing my honest opinion.

My 2 year old great grandson loves this book !!

Great grandson love it
