## Customer Reviews

This book does seem pricey at first, I generally only purchase the kids books that are only a few dollars, but I thought this book may just be worth the high price tag to have a big collection of sea monsters. I am very glad I did buy it, it's worth every penny. One I purchased it on the day my son who is obsessed with the show was scheduled for surgery, it kept him entertained while we waited all the way till he went into the OR. Since he has been watching the show for a while, he could even name the monsters off before we got to the real names. It covers 13 from the show, all of which my son had seen. Of course Kwazii has his own made-up name for each monster, and it gives you his version and then the actual creature with the information. Here is a list of who this book covers<sup>1</sup>. The eight headed sea monster - the octopus<sup>2</sup>. The vampire squid- which is actually called vampire squid<sup>3</sup>. The duck faced river monster - duck-billed platypus<sup>4</sup>. The ghost pirate - The Decorator Crab<sup>5</sup>. The Nackawack- oarfish<sup>6</sup>. The tri-toothed terror - cookie cutter shark<sup>7</sup>. The sea ghost -

long-armed squid<sup>8</sup>. The magical flying swords - swordfish<sup>9</sup>. The monster of creepy Cove-cuttlefish<sup>10</sup>. The giant shrimp monster - snapping shrimp<sup>11</sup>. The ghost whale - Albino Humpback Whale<sup>12</sup>. The Sea of Vanishing ships - the loggerhead sea turtle<sup>13</sup>. The ice Fanged Chomper - Weddell seal

Conclusion- overall I'm very happy with my purchase and if your child has been watching the show they should recognize most of the creatures if not all of them.

It's a nice summary of Kwazii's sea monsters. There is a description of the monster ala Pirate lore, then a follow-up with the accurate info on that actual animal (they are never monsters).

Really nice to have a new Octonauts book out. Funny book, great descriptions of the sea monsters. One of the best shows for kids. Hope they make more episodes and new books.

This book is a must have for any Octonauts fan! Our son loves it! There are many sea monsters from the TV series in the book with educational and fun to read descriptions.

Book material is of good quality. A fun read for the little on that loves octonauts! A bit wordy for younger readers with low attention spans, but still a great book!

The book has the most popular monsters from the show, who end up being normal sea creatures. It is a fun read and educational with facts about the sea creatures.

Nice run-down of the "monsters" Kwazii talks about on the show, and the actual sea creatures they always turn out to be.

Bought this for my son's birthday and it's a big hit in our family. He loves the Octonauts and all of Kwazii's crazy stories.
