Age Range: 4 - 8 years

Grade Level: Preschool - 3

## Customer Reviews

Incredible book with stickers galore and a place to put them. Each page has an outline of the needed sticker and tells you what page to find them on. Plus extras! I can't imagine using ALL the stickers. There are THAT many!

The National Geographic activity sticker books are a big hit at our house. My 7 and 3 year old girls have the ocean animals, cutest animals, and horses and they are all loved and enjoyed by both girls. The three year needs help deciding which stickers fit where but she does well with help and has fun with it. These were great for a road trip and would be great for flying too.

Absolutely great book to help my little ones learn about some of the creatures we will see at the beach this summer. We don't homeschool but I always try to expand their curriculum with fun books

like these! Highly recommended

This is a paperback activity book jam packed with stickers and various activities for kids to complete. From coloring to mazes to connect the dots to counting, there is a lot of fun activities. I think this would make a perfect book for kids to complete in the car or restaurant to keep them busy and entertained. It is about the size of a coloring book. Throughout the book there are also animal facts, which kids will learn and not even realize it! The book is a fun way to encourage learning while having fun. I really like that the stickers tell kids which pages they are for plus there are extra stickers. The sticker pages are perforated so you can rip them out and kids can fill out the activity book as they go, without having to keep flipping in the book. Very cute book overall!! I received this book to review in exchange for sharing my honest opinion.

I bought these books for my daughters. I just ordered 2 more and I now have 4 of them. These are so much fun. They have different sized stickers and they are sectioned so you know which pages they go with. I remove the sticker pages from the books and cut the sections apart. Then when my children want to do a set of pages, I hand them the corresponding sections. There are also extra sticker sections. I use these and any leftover stickers from the activity pages for craft time. The sizes of the stickers vary and my kids enjoy the different sizes.

Ordered this as my niece lost hers from a subscription from National Geographic, to stop the tears we placed the order. It arrived very fast and she's very happy. My family has had National Geographic in our home for years!

Couldn't figure out how to directly contact them but we Loveeee these books and buy tons! Except this last book two pages of the stickers were missing so my son couldn't finish the book ^• Was hoping they would send one out that had no pages missing since obviously this was a mistakeIt hasn't been ripped out just not includedIt's missing stickers for 14-25

My son is 6 and he has a fascination with ocean animals. This book was PERFECT for him. Very easy to understand and keeps him interested for long periods of time
