Customer Reviews

My 3 year old son loves this book. He will spend quite a bit of time looking at the pictures which are really well done and interesting. It also contains a good bit of information so I feel like he is learning a lot from it. When we first received the book, it was the only thing he wanted me to read to him. I must of read it at least 20 times in the first week. Well worth the money!P.S. This is NOT one of the religious berenstain bears books.

kids love this book and all of the different sea creature pictures!! We read it over and over and over again....:-)

My 4 year old Wants to be a marine biologist when he grows up... Or a puppy. He loves this book!!!

Berenstain Bears never fail to please my grandsons. The characters are delightful and the focus of the story always hits a home run.

Our granddaughter loves this book. Read it at least ten times over the weekend until she knew all the fish names.

Great book for kids who love sea creatures and animals. Very informative.
