What a fun book. I remember always enjoying Floyd Cramer's piano playing when I was a university student in the easy 60's. This book will give you a very good rendering of that style! It is not a difficult style to master.

This is what you need to get started playing real country-style piano, which Mr. Cramer pioneered. These songs were arranged by his grandson, and include country standards like "Crazy", "San Antonio Rose" etc. along with "Are You Lonesome Tonight?" and of course "Last Date". Not hard and a good way to get the hang of slip-note piano.

I learned a few of Floyd's pieces way back when and have had trouble finding them in music stores. Thank goodness for online, and . The music in this book is a little easy, but I am having fun getting Floyd's slip notes down, and really enjoy playing them. Brings back good memories.

Love, love, love this. The music is intermediate, not advanced, but still sounds full and interesting. The CD makes it so much fun.

Are there any more of his piano music available?
