Age Range: 4 - 6 years

Grade Level: Preschool - 1

Customer Reviews

My 2 year old LOVES this entire series of Nat. Geo Readers... I have purchased about 25 different titles, "pre-readers" as well as Level 1 & 2 readers. She loves them all & will ask for certain ones. The "pre-readers" level books are extremely simple & great because she memorizes the words & can "read" it herself. We love the more advanced ones too, because there is more information to talk about. I have learned quite a few facts, myself!) What a great series. The price is reasonable & pictures are great. These are really getting her interested in nature, animals & science... I will continue to buy these as they are released, for our collection!

I got my copy at the local library. The price here on with Prime is amazing and makes this book a must buy. In Turtles the author never loses sight of her audience, maintaining an appropriate

vocabulary with limited text and short sentence length. As one might expect from a National Geographic book, the photographs are spectacular - state of the art detail and color. With such lifelike photos, one doesn't let one's finger linger near a snapping turtle's mouth. I highly recommend this book and the others in the National Geographic Kids series.

Love the pictures in this book. My Preschoolers enjoyed looking at the pictures as we talked about turtles and their habits.

Perfect for my classroom readers

Very good
